- 1.1 **Purchase and Sale.** Subject to the terms and conditions set forth herein, Suez shall sell and deliver and Customer shall purchase and receive Firm Full Requirements Service for the facility(ies) specified in Attachment A, Exhibit 1.
- 1.2 **Term.** This Agreement shall be effective on the Effective Date and the service contemplated herein shall commence at the Contract Price on the first available Utility Transfer Date on or immediately following the Start Date as specified for each facility in Attachment A, Exhibit 1. Service shall remain in effect at the Contract Price through the first available Utility Transfer Date immediately following the End Date as specified for each facility in Attachment A, Exhibit 1. Notwithstanding the foregoing, Customer's options for service beyond the Utility Transfer Date following the End Date include: i) executing an agreement with Suez for new terms and conditions of service, ii) transferring to another competitive supplier, or iii) providing a written request to Suez to transfer Customer's account(s) to the applicable default service provider. In the event Customer does not exercise one of the options above prior to the End Date, service by Suez may continue hereunder after the Utility Transfer Date following the End Date until the next available Utility Transfer Date following Customer's exercise of one of the above options or Suez's transfer of Customer's account(s) to the applicable default service provider, whichever occurs first (the "Post-Term Period"). For service during the Post-Term Period, in lieu of the Contract Price, Customer shall pay Suez an amount equal to the applicable real time index price as posted by the ISO for the relevant delivery point, plus a per kWh Post-Term Charge as defined herein, plus any applicable non-utility charges, including but not limited to Ancillary Services, installed (or unforced) capacity, losses, and all other ISO charges or administrative fees incurred in connection with delivery of energy to the delivery point specified in Attachment A, Exhibit 1. Taxes and Utility Related Charges are additional and not included and are separately listed in the Customer invoice.
- 1.3 **Billing and Payment.** For each Billing Cycle, Suez will deliver to Customer an invoice setting forth the charges due for the preceding Billing Cycle. Such invoice shall include the monthly charges for energy consumption and any other charges or fees imposed pursuant to the terms of the Agreement, and any applicable Taxes and Utility Related Charges. Suez may, however, use estimated data for billing purposes hereunder provided that such estimates will be subject to future reconciliation upon receipt of final data regarding the actual quantity of energy consumed for the applicable Billing Cycle. Payment shall be due to Suez by check, electronic transfer or any other mutually agreed upon payment method within twenty (20) days after receipt of the invoice. In the event EFT is elected, Customer shall promptly provide all relevant account information and take all actions necessary to authorize and allow Suez to collect payment by such method during the term of this Agreement, and payment shall be collected by Suez by making an automatic draft from Customer's bank account. Overdue payments will accrue interest at the Interest Rate from the due date to the date of payment and Suez retains the right to report payment history to various credit agencies. If any amount of an invoice is disputed in good faith, the entire invoice shall be paid when due. Any disputed amounts that are ultimately determined to be owed to Customer shall be repaid by Suez with interest accrued at the Interest Rate from the date payment was due through the date of repayment to Customer. Any dispute with respect to an invoice is waived unless the other Party is notified within twenty-four months after the invoice is rendered or any specific adjustment to the invoice is made. Customer is hereby notified that Suez retains the right to sell its account receivables to the applicable consolidated billing utility under the terms of the purchase of receivables ("POR") program in the State of the Agreement. If Suez elects to enroll Customer's account in the applicable consolidated billing utility POR program, the applicable utility's terms and conditions shall supersede the terms set forth in this agreement, including but not limited to any rights to disconnect delivery service and the Section regarding Billing and Payment.
- 1.4 **Contract Price.** Customer shall pay Suez the Contract Price per kwh of electric energy consumed in a Billing Cycle. This price may include, if applicable, an Intermediary Fee, and is inclusive of all non-utility charges including energy, ancillary services, installed (or unforced) capacity, Congestion, losses, and other ISO-NE charges or administrative fees incurred in connection with delivery of energy to the delivery point specified in Attachment A, Exhibit 1. The Contract Price does not include Taxes and Utility Related Charges. Notwithstanding the foregoing, in the event the Delivery Point and the Pricing Point are different for the same facility as specified in Attachment A, Exhibit 1, Congestion shall not be included as a component of the Contract Price. In such event, Customer shall pay any actual costs associated with Congestion as determined by the ISO-NE.
- 1.5 **ISO-NE Winter Reliability Program:** The Contract Price does not include charge for the ISO-NE Winter Reliability Program described by FERC's order in Docket No. ER14-2407. These charges shall be charged to the Customer based on the Customer's load share ratio and summarized in the Customer invoice.
